JASON WALLS · ELECTRICIAN, IBEW LOCAL 369 · LOUISVILLE, KY

Software built by an electrician who ships.

Websites, iOS apps, internal tools and AI workflows for trades, local businesses and founders. Fixed price. A preview link every week. Weeks, not quarters.

Shipped: ChargeRight (evchargeright.com and the App Store) · BendRight (App Store, $6.99) · zombiewells.com, built with attorney Sarah Stogner. Prices are proposed as of October 2026.

PACKAGES

Launch Site — **$3,500** — 1 week

Up to 5 pages, copy from a 30-min interview, booking or quote form, schema and analytics, your domain, one revision round.

Your Business on Claude — **$4,500** — 2 weeks

1 to 3 AI workflows installed where the crew works: estimates from site notes, invoices chased, timesheet photos to spreadsheets, replies in your voice. Guardrails, docs, two training sessions, 30 days of fixes.

MVP Web App or Internal Tool (most asked for) — **from $12,000** — 3 weeks

Scoped brief first. Login, database, admin, Stripe if you sell, one AI feature, QuickBooks or your tools connected, tests on money and data, weekly preview, launch on your accounts.

iOS App to the App Store — **from $10,000** — 4 weeks

Capacitor or SwiftUI, StoreKit purchases, privacy page, listing and screenshots, submission handled through approval, weekly TestFlight builds.

Care Plan — **$400 / mo** — cancel anytime

Hosting watch, updates, 3 hours of changes a month, a one-page report, reply within one business day.

Extra day — **$1,200** — booked a week ahead

One scoped list, worked top to bottom. Clients and former clients.

HOW IT GOES

1. 20-minute call, free 2. Written brief 3. Fixed quote, 50% to start 4. Build with a weekly preview 5. Launch on your accounts, you own everything 6. 30 days of fixes, then Care if you want it.

SCOPE PROTECTION

The written brief is the contract. If scope changes mid-build you get a written change order before anything is billed. Third-party costs (hosting, Apple's $99, APIs) go on your own accounts, unmarked up.
